

SIS Project – Getting to know you

Please answer these few questions to the best of your ability so that the SIS Integration Team can meet your needs as we implement the new SIS. We'll add you to our inventory and include you in analysis, design, implementation, and testing as the appropriate launch approaches.

(Fill out this form once for each student system that you administer or support.)

Your username (kbliman@berkeley.edu) will be recorded when you submit this form. Not **kbliman**?
